

Notice of Product Replacement:

Gantom iQx to Gantom iQx – Pro Cable Connector

Gantom, located in Valencia, California, USA, is the sole designer and manufacturer of all authorized Gantom products worldwide. Please be advised that the “GoCable” versions of the Gantom iQx which feature a 2.1mm DC barrel jack for power and a 3.5mm TRS jack for DMX (item# GT41 and GT42) have been replaced with a new version which features our Pro Cable Connector. The only difference between these fixtures is the connectors. The Pro Cable Connector is compatible with the Gantom Pro Cable System for power and DMX signal distribution. For more information on this system, please visit our website.

OBSOLETE VERSION		
Part#	Item Description	Status
GT41	Gantom iQx – Cool White	obsolete
GT42	Gantom iQx – Warm White	obsolete
REPLACED WITH		
GP241	Gantom iQx – Cool White – Pro Cable Connector	now available
GP242	Gantom iQx – Warm White – Pro Cable Connector	now available

Note that in order to have the same "GoCable" style connectors for power (2.1mm DC Jack) and data (3.5mm TRS jack) used on the GT41 or GT42, an adapter cable (part# CB107) would be required.

If the old version of the Gantom iQx has been specified for a project and the project is not able to use the new Gantom Pro Cable System, the appropriate substitutions are as follows:

GT41 ---> GP255 + CB107

GT42 ---> GP256 + CB107

For questions or concerns, please email support@gantom.com and we will get back to you as soon as possible.
