

Notice of Product Replacement:

Gantom One DMX to Gantom One DMX – Pro Cable Connector

Gantom, located in Valencia, California, USA, is the sole designer and manufacturer of all authorized Gantom products worldwide. Please be advised that the "GoCable" versions of the Gantom One DMX which feature a 2.1mm DC barrel jack for power and a 3.5mm TRS jack for DMX (item# GT55 and GT56) have been replaced with a new version which features our Pro Cable Connector. The only difference between these fixtures is the connectors. The Pro Cable Connector is compatible with the Gantom Pro Cable System for power and DMX signal distribution. For more information on this system, please visit our website.

OBSOLETE VERSION		
Part#	Item Description	Status
GT55	Gantom One DMX – Cool White	obsolete
GT56	Gantom One DMX – Warm White	obsolete
GT57	Gantom One DMX – Ultraviolet	obsolete
REPLACED WITH		
GP255	Gantom One DMX – Cool White – Pro Cable Connector	now available
GP256	Gantom One DMX – Warm White – Pro Cable Connector	now available
GP257	Gantom One DMX – Ultraviolet – Pro Cable Connector	now available

Note that in order to have the same "GoCable" style connectors for power (2.1mm DC Jack) and data (3.5mm TRS jack) used on the GT55 or GT56, an adapter cable (part# CB107) would be required.

If the old version of the Gantom One DMX has been specified for a project and the project is not able to use the new Gantom Pro Cable System, the appropriate substitutions are as follows:

GT55 ---> GP255 + CB107
GT56 ---> GP256 + CB107
GT57 ---> GP257 + CB107

For questions or concerns, please email support@gantom.com and we will get back to you as soon as possible.
