Part Number	Description
GT31	Gantom iQ - Cool White
GT32	Gantom iQ - Warm White

Description

The Gantom iQ is the world's smallest gobo projector with zoom and focus for professional lighting applications. Using LED technology and special optics, the Gantom iQ can render bright and sharp images from a variety of gobo materials including metal, glass, and even film. This fixture opens up a vast new dimension of creative lighting possibilities by allowing images, patterns, and signage to be projected in ways that were impossible with traditional gobo projectors.

Features

- ▶ Smallest gobo projector in the world
- ▶ Accepts steel or full-color glass gobos
- ▶ 2.8 Watt LED
- ▶ Adjustable zoom and focus
- ▶ Warm White or Cool White LED
- ▶ Standard 2.1mm DC barrel jack for power
- ▶ Screw Terminal Adapter included for connecting to bare wires
- ▶ Class 2, low-voltage 12-24VDC input (DO NOT HOT PLUG)
- ▶ Minimal maintenance required with over 50,000 hour lamp life.
